A Robotic project based on Kinematics using four bar linkage mechanism capable of moving in 360 degree direction and lift/carry objects

### **Extraction and Testing of Liquid Diesel**

Using the process of Plastic Pyrolysis to prepare an alternative fuel which is environment friendly since it doesn't contain any trace of Lead

## CAREER OBJECTIVE

To become an expert in my field and constantly upskill myself

## STRENGTHS

Fluent Communication

Hard Working

Responsibility

Time Management

## AWARDS

Runner-up - SSIET  
Solid Works Design Mania

Runner-up - SSIET  
Mechanical Quiz

## COMPUTER SKILLS

MS Office, AutoCad,  
SolidWorks, CATIA, LabView,  
ANSYS

## WORKSHOPS

Workshop on CNC Milling  
machine at SREC Coimbatore

High Tech Engineering on  
Laser Technology Coimbatore

Welding Technology course in  
Hindustan College Coimbatore
